

# **Outline of a 30-Minute Talk to the County Recorders of Utah 31 July 2000 at Daniels' Summit Lodge 8 am:**

## **Introduction:**

**At the outset, I declare: "Wasatch County has been here thousands of years!.....as attested to by the magnificent mountains around us and the DINOSAUR Bones in the eastern part of the OLD Wasatch County.**

**Wasatch County was carved out of old Salt Lake County and Utah County in 1870.**

**So...the earliest recorded history of this county began while Utah was called the "Territory of Utah," which was authorized by US Congress on 9 Sep 1850....as it passed from a government called the "State of Deseret," Instituted and governed by an able Colonizer, called Brigham Young, about 3 kyears before.**

**This Territory included 225,000 square miles and bounded by Oregon on the north, on the east by the summit of the Rocky Mountains and on the west by the Pacific Ocean and California; with a seaport in San Diego, California. It included all of present-day Nevada, Utah, and parts of Idaho, Wyoming, Colorado, and California.**

**Now...We must also declare that Wasatch County, and Utah and all of the Great South West and as a matter of fact all of the Western United States is the result of a gradual and massive migration of populace from the original 13 Colonies on the eastern seaboard toward the WEST!!!**

**I do not believe such a multitude of people has migrated anywhere in the World in such great numbers and insuch a short time....it is a matchless EPOCH!!!**

**May I point out that the western push to occupy land west of the Appalachian Mountains, was obstructed by many factors:**

**The Revolutionary War had just been waged in 1776.**

**The new United States Republic was barely gained momentum.**

**They were still dealing with stringent Great Britain apron strings and firm European ties.**

**The hostile Indians of the western frontier,whilch frontiers only gradually pushed westward against mighty heavy resistance.**

**The population had not grown enough before 1800, to require more western lands.**

**And then there was a mental attitude of Reservation and FEAR of the WESTERN UNKNOWN.**

Section 5  
The Commission on the Status of Women  
and the United Nations

The Commission on the Status of Women was established in 1946 as one of the five main commissions of the United Nations. Its mandate was to promote the status of women and to coordinate the work of the United Nations in this field. The Commission has since then held regular sessions and has produced a number of important documents, including the Declaration on the Equality of Rights of Men and Women, the Convention on the Elimination of All Forms of Discrimination Against Women, and the Platform for Action adopted at the World Conference on Women in 1975.

The Commission has also been instrumental in the development of the United Nations Development Fund (UNDF) and the United Nations Children's Fund (UNICEF). It has played a key role in the implementation of the United Nations Millennium Development Goals (MDGs) and the Sustainable Development Goals (SDGs).

The Commission's work is carried out through its various working groups and expert groups. It also maintains a close relationship with the United Nations Secretariat, the United Nations High Commissioner for Human Rights, and other United Nations agencies.

The Commission's efforts have led to significant progress in the promotion of women's rights and the advancement of women. It has helped to raise awareness of the issues facing women and to mobilize resources for their development. It has also played a key role in the implementation of the United Nations Women's Empowerment Principles (WEPs) and the United Nations Women's Equality Fund (WEF).

The Commission's work is ongoing and it continues to play a vital role in the promotion of women's rights and the advancement of women. It is committed to working with all stakeholders to achieve the goal of gender equality and the empowerment of women.

The Revolutionary War had just been waged in 1776.

The new United States Republic was barely gained momentum.

They were still dealing with stringent Great Britain apron strings and firm European ties.

The hostile Indians of the western frontier,whilch frontiers only gradually pushed westward against mighty heavy resistance.

The population had not grown enough before 1800, to require more western lands.

And then there was a mental attitude of Reservation and FEAR of the WESTERN UNKNOWN.

*County Recorders Convention:*

@ Daniels' Summit Lodge. 7-31-00 8am

Welcome to the Civil Record Keepers for the State of Utah - You are a very select group - a sincere group, a diligent & exacting group. You demand much from yourselves for those - us you serve. So much for accolades & attention getters.

First, I want to re-assure you that Wasatch Co. has been around a very long time! - as attested to by the Mts. around us & the dinosaur bones found in our eastern-most former Environs.

Wasatch Co was first parts of SL & Utah Cos  
& included all of present Wasatch Co, Duchesne  
Co & Uintah Co.

" " loped off about  
Duchesne " " " "

Mrs Fields wanted to lop off Bench Creek into Summit Co. Other threats by Park City would lop off more — So Wasatch Co was once Expansive!

Millions of years of Watch Co passed un-noticed  
The Mesozoic Era of 225 Myrs ago to 65, Myrs ago brot  
the Dinosaurs

I don't know when the good Lord made our Mts.  
The history of America being settled by  
Europeans, fits well into Wasatch Co History also,  
because: like the settlements of Jamestown Va.,
